The new forklift was perfectly suited for use in fertilizer and dairy farms, so the forklifters stopped in white for painting the body, which was associated with cleanliness and disinfection. The dictionary gave a description of the trot in English "bobcat", which sounded like "a strong, fast, dexterous animal." Eureka! So the brand appeared Bobcat. The company gained popularity mainly thanks to the first miniloader, invented almost 50 years ago in the USA for mechanization of laborconsuming loading and unloading operations in farms. Well assume youre ok with this, but you can optout if you wish.

Find dozer auctions, wheel loader auctions, excavator auctions, skid steer, motor grader, crane, crawler loader, crawler dozer, and scraper auctions, plus much more. These online auctions take place each week, with standard bidding beginning 24 hours before the close of each auction. Advance prebidding begins 7 days before the close of each online heavy equipment auction. Look for names like Caterpillar, Komatsu, Case, Deere, Volvo, Bobcat, Hitachi, Grove, Terex, and many others. AuctionTime.com is owned and operated by the publishers of Machinery Trader and MachineryTrader.com. Each section covers a specific component or system with detailed illustrations. A table of contents is placed at the beginning of each section. Pages are easily found by category, and each page is expandable for great detail. The printerready PDF documents work like a charm on all kinds of devices. Well also throw in a little bit of information about reman final drives for the older model Bobcats such as this. It was equipped with rubber tracks instead of tires, which provided better traction and flotation than the skid steer loader could achieve. Bobcat claimed that "In 2000, the 864 became the Bobcat T200. A few years later the Bobcat T300 signaled the end of production for the T300. The Bobcat T200 is more closely related to the Bobcat 864H G with its 32 gpm auxiliary flow rate. The Bobcat 864 has an SAE rated operating capacity ROC of 2,000 pounds and a tipping load of 5,715 lbs. The travel speed for the 864G is 6.7 mph and it weighs 8,080 lbs. Its later incarnation, the Bobcat T200, has the higher auxiliary flow rate of 32 gpm. Oil is used to cool the internal parts of these engines. Maintenance is key to keeping these engines running well. A reman final drive not only meets but often exceeds original OEM specifications and it's not unusual for a reman to be of even better quality than the original.

Because of their durability and utility, these models are still in use all over the United States. Call today so we can find the right final drive or hydraulic component for you, or check out our online store to find your O.E.M. manufacturer brand motor now.
