|--------|--|---|
| | 406-CA Undercounter refrigerator single section on casters | 407-CA Undercounter freezer single section on casters |

Model 406-CA

Standard Features

- Features Delfield's exclusive ABS inverter. ABS is extremely durable - it won't dent, chip, or corrode and is backed by a limited lifetime warranty.
- Stainless steel frame and sides.
- Two epoxy coated wire shelves, standard per unit.
- Environmentally friendly R404A refrigerant.
- Finished in place environmentally friendly, water-resistant, Compliant, Non-CO2 (Ozone Depletion Potential, Non-CO2 Global Warming Potential) polyurethane cast energy coils.
- Black recessed push grip handle.
- Rugged 8" high heavy duty metal legs (models 406 & 407 only). Units with a "CR" suffix are standard on 3" diameter (3.75" side height) casters.
- All units come standard hinged right and may be changed at the factory at no charge. Indicate when order is placed.
- * Food and drug supplier.

Options & Accessories

- Stainless steel back.
- Plastic laminate on front.
- Additional shelf.
- Stainless steel single-tier coverlid.
- 3" diameter (3.75" side height) casters.
- Model 409 stacking collar.
- Door lock.
- 220 volt, 50 Hertz electrical system.

Specifications

Exterior finishes shall be heavy gauge galvanized metal. Interior finish shall be heavy gauge stainless steel.

Base material shall be one piece thermally bonded ABS plastic. Interior with optional stainless steel. ABS plastic is a non-toxic, non-flammable, non-corrosive, and non-oxidizing material with high density bonded in place environmental friendly. Handle, Upper Panel and Casters, Non-CO2 (Ozone Depletion Potential, Non-CO2 Global Warming Potential) polyurethane.

Door shall have a heavy gauge stainless steel exterior with a thermally bonded ABS plastic interior finish and shall be fully insulated with laminated rigid polyurethane. Door handle shall be black, recessed ABS. Cabinet shall have (2) adjustable spring control wire shelves (standard).

MODEL 406-CA REFRIGERATORS REFRIGERATION SYSTEM

Refrigeration system shall use R404A refrigerant. Compressor shall be 1/2 hp, with condenser and fan, full performance, with 100% oil return. Refrigerant coil and temperature control shall be installed on the exterior side of the cabinet. Refrigerant line shall be insulated by a 1" thick insulation. Cabinet shall maintain 0°F to 1°F at 24 hours cabinet temperature.

Electrical connections shall be 115 volts, 60 Hertz, single phase. Unit shall have a 1 1/2 hp long electrical cord and NEMA 5-15P plug. Cord and plug shall be located on rear of cabinet. 10" minimum clear floor. 2" from the side rails.

WARRANTY

Equipment is shipped with base of 1 1/2" diameter high metal legs with the standard black rubber mounting, optional on high duty units only. Customer top shall be one piece, heavy gauge stainless steel with cast edge formed doors to front, hinging and rear edge formed doors.

CEC ENERGY STAR

Equipment is shipped with base of 1 1/2" diameter (3.75" side height) casters, high casters, casters, casters and front casters. Stacking collar, according to specified on original sales order. Stacking top shall be one piece, heavy gauge stainless steel with cast edge formed doors.

Okay, theyre not those kind of cookies, but theyre still great. Delfield reach ins offer exclusive features like full integral door length handles, self closing doors up to 90, LED interior light, greater capacity without increasing foot print and easy to read electronic display. Configure your reachin to fit your space and operational needs, choose from a variety of sizes that are designed to maximize storage space while minimizing footprint.

<http://energysatrap.com/images/Converting-Auto-Gearbox-To-Manual.pdf>

Select from doors, drawers or a combination of the two to maximize your cold storage while keeping enough product at your staff's finger tips to handle the rush with the freshest foods. Pair ecoresponsible R290 with Delfield's adaptive defrost technology and you get GreenGenius, Delfields new hydrocarbon refrigeration system. Built from 60 years of quality Delfield refrigeration knowledge and natural R290 refrigeration technology. Energy efficiency, environmental responsibility and maximum cooling potential combine to create Delfield's new refrigeration system. Natural hydrocarbon refrigerants, like R290, have many properties that are beneficial to both foodservice operators and the environment alike. Natural refrigerant gases contribute much less to global warming and doesn't contribute at all to ozone layer destruction, which helps preserve our people and nature. We combined natural R290 with our own well known adaptive defrost

technology. With adaptive defrost you never again have to worry about when your system will go into defrost, the system monitors the environment and automatically adjusts defrost times so you always have a clean, ice free evaporator, all the time. This reduces compressor cycling and saves on energy. We are pleased to provide you the latest software updates of the Convotherm range.
